## Matt Collis

I am proud to call Katanning my home & I am an active community member, volunteer and I am on a number of committees.

I was awarded the Katanning Citizen of the Year in 2018. During 2020 with Katanning Environmental I set up the Containers for Change Refund Point in Katanning and so far we have refunded over 2,000,000 containers, returning over \$200,000 directly to the community and community groups.

Local government is a very important part of any town and being a Councillor is equally as important. As a Councillor, I believe I would bring integrity, honesty, transparency & hard work to the role. I have an independent mind and can work well as part of a team.

I want to see Katanning grow and diversify not only for my family but also for the wider community. I would welcome your support!
