---

## Michelle Salter

Myself, my husband and our two young children moved to Katanning 2 years ago. Since moving to Katanning I have become involved in Playgroup, Toy Library, A Smart Start Great Southern, Diamond in the Wheatbelt (kids ballet). I am currently studying Certificate III in Early childhood Education while working at the Katanning Community Childcare Centre. Building support networks through early years activities such as storytime, playgroup, toy library was vital for me personally. I am passionate about mental health support and believe that this is an area that we, as a community, need to improve on. We require more support programs for individuals within our town and to assist families with early interventions from established community mental health services.
