BINS WILL STILL BE COLLECTED ON PUBLIC HOLIDAYS

BIN COLLECTION CALENDAR

USING YOUR BINS

Place bins out by 6.00am
on the day of collection

Tips:
Store bins in a shaded area.
Clean regularly.
Freeze smelly food before placing in your green bin.
65kg Maximum weight for waste bins.
Do not compact waste bins.

YOUR RECYCLING BIN (YELLOW-TOPPED)

Items should be loose **(not in plastic bags)**, rinsed and free from any food remnants.

This includes:

✓ **All cans and tins** including aersols cans and tin foil.

✓ **All glass**, even broken glass

✓ **All paper products** including wax cartons and pizza boxes.

✓ **All plastic containers** (empty) including salad dressing, tomato sauce and condiment bottles

Please remember:

X No building waste

X No food or garden waste

X No hazardous waste

X No nappies

X No silver-lined UHT drink cartons

YOUR WASTE BIN (GREEN OR RED TOPPED)

✓ **All food scraps, organic waste, non-recyclable general waste, grass clippings, small prunings, nappies, clothing that can't be sent to charity and soft plastics (or deposited to Woolworths bins at counter)**

X **No batteries**

X **No construction, demolition & building materials** (no bricks, sand, soil, concrete, rocks or asbestos)

X **No glass or ceramics** (All glass goes in your recycling bin (yellow topped)

X **No hazardous waste**: petrol, gas cylinders, paints, motor oils, garden chemicals & poisons, pool chemicals, cleaner, acids, bleaches & ammonia, medicines & flammable liquids

USING YOUR BINS

HARD WASTE COLLECTION

HARD WASTE COLLECTION – COMMENCES MON 20TH JULY

HARD WASTE COLLECTION GUIDELINES

- All items must be out by 7.00am on Monday 20th July. Council is unable to provide exact collection days or times.
- Place your items on the verge no more than one week before collection to avoid litter issues; households shall not add their excess waste to another property's verge area or place on vacant properties or reserves.
- The property owner is responsible for maintaining the waste piles in a safe condition and in a manner that does not cause litter.
- Please keep all waste clear of reticulation, water mains, electrical domes, footpaths, street signs, street corners and do not place against trees.
- Streets will only be serviced once. Hard waste placed out AFTER the collection date will not be collected and remains the responsibility of the owner to remove.
- Items should not be greater than 2m in length and waste should not exceed three (3) cubic metres.
- Allow up to seven days for collection.
- Infringements may be issued for non-compliance with collection guidelines.

WHAT WE WILL COLLECT ✓	WHAT WE WON'T COLLECT ✗
✓ **Furniture indoor / outdoor**	✗ **Asbestos products**
✓ **White goods**	✗ **Bricks and rubble**
✓ **Carpets / Lino**	✗ **Flammable liquids**

REFUSE SITE INFORMATION

Katanning Refuse Site
326 Nyabing Road, Katanning

Opening Hours
Wednesday to Sunday
11:00am to 12:45pm & 1:30pm to 5:00pm
Monday, Tuesday & All Public Holidays - Closed

Tip passes enable Shire of Katanning residents to dispose of certain wastes at the Katanning Refuse Site for free. Additional tip passes are available at the Shire office.

The passes can only be used:
by residents who pay for Shire waste services and are not transferable to any other persons, businesses or organisations. to dispose of the types and amounts of wastes specified and fees may still apply if you want to dispose of mixed or additional wastes.

If someone else occupies the property and these passes have been allocated to, you should give the passes to the occupant.

The Shire encourages you to **recycle** as much waste as possible before taking the rest to the Refuse Site. For example, if you have clothes, furniture, bikes, toys or other items that are still in reasonable condition you may be able to sell or give them away using local buy and sell websites or donate them to a charity shop.

For further information about the Katanning Refuse Site, including wastes that can be accepted at the facility, disposal fees that apply and unacceptable wastes, please see www.katanning.wa.gov.au and select *Services > Waste & Recycling* or scan the QR code with your smartphone camera.

SCAN ME

PEST CONTROL

Keep Pests Out!

Mice & Rodents

Prevention is the key!
Keeping your home free from rodents, and in-turn snakes, is all about prevention and exclusion.

Snakes

Clean Up! Clean up to eliminate rodent food and nesting sources.

- All trash should be thrown out as soon as you can. Make sure your lids on your bins close fully or tight-fitting.
- Eliminate clutter by cutting and removing grass/weed overgrowth. ***Rodents like to make their homes in clutter****
- Remove all old vehicles and tires.
- Elevate hay and woodpiles off the ground.
- Keep compost bins as far away from the house as possible.
- Food from vegetable gardens and fruit trees should not remain on the ground.

Seal Up! Seal up common entrances into the home

- Kitchen cabinets, refrigerators, stoves, closets, fireplaces, doors, windows, attic, basement, crawl spaces and electrical, plumbing, cable and gas lines.
- Fix small holes with steel wool.
- Fix large holes with solid materials like metal & cement. These materials can be found at your local hardware stores.
- Sink holes and burrows outside your home should be covered by solidly packed dirt and monitored.

Trap Up! Trap up rodents to decrease their population

- Choose and appropriate trap (snap and/or glue) and add bait to attract rodents.
- Set traps in any are where there is evidence of rodent activity.
- Poison is not recommended because rodents may die in the walls or under the floors preventing you from removing it.
- If you suspect a rodent infestation, call a professional pest management company

FIGHT the BITE

PROTECT YOURSELF

against DISEASE-CARRYING MOSQUITOES

Mosquitoes can breed around your home. They will lay their eggs in fresh or salty water, and often in containers that hold water. Common breeding sites include pot plant drip trays, gutters, ponds, pet water bowls, old tyres, rubbish, containers and pools that are not well maintained.

Stop mosquitoes breeding around your home by following these simple steps:

- Empty out or discard containers and rubbish that may hold water.
- Clean out roof gutters to prevent water from pooling.
- Empty, clean and refill bird baths, stock troughs and pet water bowls at least once a week.
- Keep swimming pools properly maintained and free of debris.
- Empty wading pools at the end of each day.
- Stock backyard ponds with fish to eat mosquito larvae.
- Cover rainwater and septic tank openings, wells or other large water containers with mosquito-proof mesh.
- Keep edges of ponds clear of vegetation.

Maintain swimming pools to stop mosquitoes breeding around your home.

Discarded tyres and other containers can hold water that mosquitoes breed in.
