BLESSING OF THE ROADS

This Easter the Shire of Katanning is encouraging the Katanning community to think about what number they are willing to accept when it comes to fatalities and serious injuries on our roads.

Through the WALGA RoadWise *Blessing of the Roads* campaign we will be challenging the idea that road trauma is inevitable by getting people to think about what is an acceptable level of road trauma. By challenging the belief, we aim to generate support and involvement in local road safety initiatives which help contribute to achieving the long-term vision of zero deaths and serious injuries.

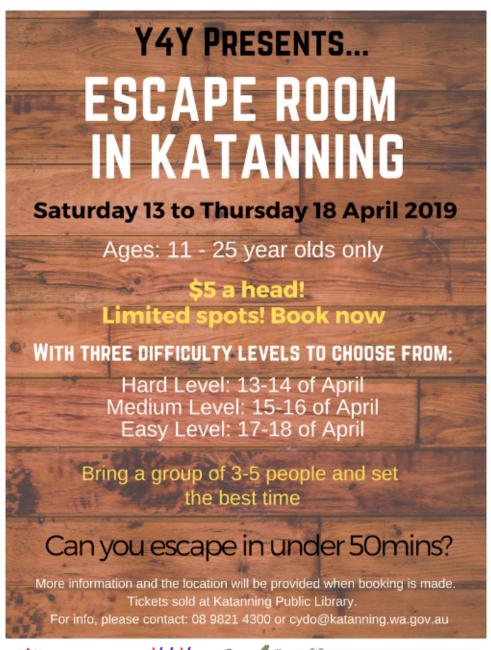

We will be hosting a *Blessing of the Roads* event at Katanning Leisure Centre Ram Pavilion on **17 April 2019** at 5.30 to showcase local road safety initiatives to demonstrate how we can all work together to achieve the vision of zero.

Remember, by working together we can achieve the long-term vision of zero deaths

and serious injuries.

For further information about the campaign, visit the RoadWise website, www.roadwise.asn.au.

ONLY WORKING SMOKE ALARMS SAVE LIVES

If your smoke alarm isn't working properly, it won't warn you and your family of a fire in your home!

Is it time to change your battery?

Whether you need to change your smoke alarm battery will depend on your type of smoke alarm.

If you do need to change the battery, DFES recommends you do this on the first day of April.

Smoke alarms powered by:

• 9V AKALINE BATTERY require you to replace batteries every year.

- 10-year NON-REMOVABLE LITHIUM BATTERY do not require you to change the battery each year.
- MAINS-POWERED SMOKE ALARMS have a battery back-up for periods of mains power outage.

Many models have a rechargeable (non-removable) battery and do not need replacing. Refer to the manufacturer's instructions to see if you need to change the battery.

CATTON CONTROL AND ALLOW CONTROL CON

After replacing the battery

Always test that your smoke alarm is operating by holding down the test button until you hear a loud alert tone.

Things you should know...

- Not all smoke alarms need their batteries replaced.
- Smoke alarms will make a 'beep' or 'chirping' sound when they have a low battery or are faulty.
- Mains powered smoke alarms are required to have a Green "Power ON" LED indicator.
 This will light up when the alarm is connected to mains power.
- Test your smoke alarm every month by holding down the test button until you hear a loud tone.
- All smoke alarms require replacement every 10 years. If you do not know how old your smoke alarm is, it's time to replace it.

For more information:

- Visit the DFES website at www.dfes.wa.gov.au
- Read a number of Smoke Alarm-related Factsheets here.

hapless city boys are exiled to a remote mountain village for reeducation during China's infamous Cultural Revolution.
